

# FULL STACK DEVELOPER

**Job Role:** Full Stack Developer

**Job Location:** Hyderabad

**Experience:** 5-8 Years

## Job Description:

The candidate will be responsible for designing, developing, testing, and debugging responsive Web and mobile applications for the company. Using JavaScript, HTML, and CSS, this candidate will be able to translate user and business needs into functional frontend design.

## Responsibilities:

- Designing, developing, and testing UI for mobile and web applications.
- Build reusable code and libraries for future use.
- Ability to convert a requirement document to a design to be implemented by the team.
- Backend designing and development using NodeJS.
- UI Web development expertise using ReactJS, HTML5, CSS3, SCSS, JavaScript, etc.
- Developing User Interface (UI) for Rich web and mobile applications.
- Consuming and integrating UI with REST/JSON based web services.
- Following the SDLC to deliver contents in a fast-paced environment.
- Use SCRUM methodology to deliver incrementally.
- Interacting with technical team and design team to develop web applications as per technical requirements.
- Write well-documented, maintainable and clean code.
- Specifying, designing, and/or implementing system health, performance monitoring tools, and Software management tools for 24x7 environments.

## Qualifications:

- Bachelor's degree or equivalent in Computer Science.
- 2+ years experience in frontend development.
- Familiarity with Scrum/Agile development methodologies.
- Experience building object oriented web applications in JavaScript, HTML5, and CSS3
- ReactJS and ReactNative.
- Expertise in ReactJS/React Native add on technologies like Redux, Flux, Hooks, Router, NodeJS, Express etc.
- Experience working with AWS services like Lambda, DynamoDB, API Gateway, App Sync, etc.
- Strong, object-oriented design and coding skills.
- Good background including design patterns, data structures, algorithms, etc.
